

ANDY YOUNG

a7young@ucsd.edu – (808) 218-8306 – <https://www.andyluyoung.com/>

EDUCATION

University of California, San Diego

BS Computer Science (Intended)

Sep 2019 – Jun 2023 (Expected)

La Jolla, CA

- GPA: 3.84 (CSE Major)

WORK EXPERIENCE

Automatic Data Processing, Inc.,

Contract Web Developer

Dec 2018 – Present

Honolulu, HI

- Developed multiple Node.js and Ruby on Rails webapps that automatically allocates tips, calculates tip credit, and determines employee healthcare eligibility for ADP Hawaii's clients. Currently working on expanding to more clients of ADP.

Fiverr

Freelance Web Developer

Mar 2017 – Jan 2019

Remote

- Created 30+ different applications, websites, and chrome extensions for customers on fiverr.com

SKILLS

- Programming Languages: Javascript, Python, Ruby, Java, C, C++, HTML/CSS
- Frameworks: Node.js, React.js, Ruby on Rails
- DB Management Systems: MongoDB, PostgreSQL

PROJECTS

Dominos Pizza & MBC Tip Allocation Program

<https://mnysoftware.com/secureupload>

Created a webapp for ADP using Node.js, MongoDB, and Python that uses raw employee data to automatically distribute tips and generate payroll sheets for Dominos Hawaii and Maui Brewing Company.

This Tab

<http://www.this-tab.com/>

Developed a website for a customer on Fiverr using Ruby on Rails that allows users to donate money generated by viewing new tabs with Google Ads to charities of their choice.

Punahou Student Hub

<https://punahoustudenthub.com/>

Worked with two other high school classmates to create a webapp for our school that allows students and faculty to view and post announcements, events, clubs, and schedules using Ruby on Rails.

OP.GG Search

<https://chrome.google.com/webstore/detail/opgg-summoner-search/dfnoddgekoeiljeakobnchnedoipgpc?hl=en>

A chrome extension with 5,000+ current users that I created in my freshman year of high school which adds features to a commonly used site.
